Note of Appreciation

Posted by Rob Fortner on Mar 15 '13

Director Jones,

I just wanted to take a moment to say "thank you" for your positive comments and team reinforcement on this morning's Conference Call. Sometimes improvement suggestions can be taken as criticisms, but the goal remains to put forward the best application packet for Florida's Emergency Responders.

I too think everyone has done a really good job of putting those documents together, thank you for your leadership and setting the right tone, and am thankful for the opportunity to participate in this important work.

Have a great weekend.
Rob
