Update from FirsNet

Posted by Brett Boston on Mar 21

SPOCs, (State Point of Contacts)

We appreciated the opportunity to participate in the State and Local Implementation Grant Program (SLIGP) workshops and your participation in the FirstNet portions. Your feedback on state consultation and the initial consultation process was particularly valuable and timely for FirstNet. We also received many suggestions for new outreach material and look forward to working with you to align our outreach strategies.

Attached please find the final draft consultation checklist for initial consultation; this draft incorporates much of the feedback we received from the SLIGP workshops. **If you have any final edits or suggestions, please provide them by Thursday, March 27 2014.**

As announced in Phoenix, the new www.firstnet.gov website launched and includes some new materials on the Resources page to support your outreach efforts:

- SLIGP Workshop Slides (note to Atlanta attendees, the slide deck includes a few new slides)
- FirstNet Fact Sheet on how the FirstNet network will work with land mobile radio
- FirstNet Fact Sheets for emergency medical services, fire services, and law enforcement
- FirstNet Board March Meeting Materials

We will continue to keep you apprised of new information as it is posted to the website. We plan to build out a more robust website over the coming months, and will continue to discuss and solicit your input during the monthly SPOC calls.

Lastly, for those of you attending the International Wireless Communications Expo (IWCE) conference next week, we encourage you to participate in the FirstNet sessions. General Manager Bill D'Agostino and Deputy General Manager TJ Kennedy will deliver the afternoon keynote address on Wednesday, March 26. Board members Chuck Dowd and Jeff Johnson will also take part in a panel discussion on our recent developments. In total, the IWCE conference will feature 10 separate sessions on FirstNet activities and related topics.
